

We write to urge you to strengthen the media ownership laws so as to prevent consolidation by large corporations such as Sinclair Broadcasting, Rupert Murdoch, and others. Sinclair's decision to force their stations to air an anti-Kerry documentary is a clear example of the kind of control that does not serve the public interest of our democracy. They use the public airwaves free of charge and are obligated by law to serve the public interest. One sided political views have no place on the public airways, no matter which side they espouse. We therefore ask the FCC again to strengthen the laws against media consolidation.
